

Dear Grange Members:

Thank you for your interest in the Dictionary Project - a community service program that provides personal dictionaries to third grade students across the country.

Enclosed, please find all of the necessary information and components about how your Grange can participate in the program. The program is very easy get involved with and dictionaries cost as little as a \$1.25 each.

To date, more than 530 Granges from Alaska to Florida have provided almost 400,000 dictionaries to third grade students. If your Grange is already participating, I encourage you to continue to give dictionaries to each new class of third graders. If this is your first time donating dictionaries, I congratulate you on your initiative to help educate the children of your community.

The Dictionary Project is an excellent opportunity to showcase your Grange's involvement in the local community. We have included a sample press release and media advisory for you to distribute. I encourage you to publicize and promote your involvement with the Dictionary Project to the local media to highlight the important role the Grange plays in the community.

Once you have presented the dictionaries, please complete and return the participation form so we can recognize your Grange's contribution on the National Grange website.

If you have any questions about the program, please contact Samantha Johnson at 1-888-447-2643, ext. 109.

Thank you for your participation.
